Greg Petropoulos

Get to know me

There's nothing I love more than my family. A well-run team — in and outside of an office environment — operates just like one. While I've been a leader in all senses of the word throughout my expansive career beginning as a squad leader in the Marines, moving on into the geological field and presently as a sales manager which puts me in charge of several teams and projects throughout the Southeast, I am currently enrolled in programs to further my education and make a career change. Leadership and teamwork are skills I will always bring to the table but I'm excited to work towards a new role in an environment within the tech industry which will evolve my skillset.

Experience

Evergreen Foam & Insulation
Sales Manager
May 2019 - Present

Baker Hughes, a GE Company
Technical Field Representative
March 2018 - May 2019

UNLV Geoscience Department
Lab Tech
